SOLAR CATAMARAN | FOR ENDLESS BOATING

Turn the power of the sun into an experience for the soul

The SRE23 is a 7 x 2,5 m electric catamaran designed for up to 10 persons

SILENT
Enjoy the sound of the sea

NO FUEL
No fumes, less maintenance

SOLAR
Free from shore power

Two motor options. Two ways to enjoy the sea.

3 kW engine | 5,4 kWh battery

Slow is the pleasure

Soak-up a never-ending moment at sea. No smell of exhaust fumes when the wind is at your back; ideal for watching dolphins from the bow, eating while cruising, sunbathing or just chilling.

6 kW engine | 5,4 kWh battery

Up to 7 knots

The practical all-rounder for operators who want to move between destinations, then spend most of the outing at anchor for relaxing, fishing or diving — while keeping the sun recharging for a full power autonomy.

Overall rating tested in the French Riviera ⭐⭐⭐⭐⭐
(300+ on Google) (500+ on TripAdvisor) (400+ on Get Your Guide)

An experience people book for the boat

From easy-going coastal discovery to a premium private tour

A large market segmentation

Offer non-stop experience lasting from 1 to 4 hours, with a captain or, where local rules allow, as a license-free rental. With capacity options up to C-8 / D-10 passengers, seaZen can suit a large range of coastal experiences and customer profiles.

- Sunset, sightseeing or dinner cruises
- Shared tickets or private tours
- Taxi boat
- Boat rental or boat club

Smart solution Efficient operations

SHORT OUTINGS

High-value experiences fitting each time slots of the day.

LEANER OPERATIONS

No fuel, no charging and easy cleaning means no downtime.

A CLEAR DIFFERENCE

Give guests a modern, responsible choice they can feel good about.
